

Band

This yearlong course enables students to develop fundamental skills on winds or percussion instruments. Students may be required to buy or rent an instrument and participate in extra rehearsals and performances beyond the school day. If you already play an instrument please make a note of that on the front of this form.

Chorus

Students will develop fundamental vocal musicianship and technical skills through the study and performance of a variety of middle school choral literature. Students may be required to participate in extra rehearsals and performances beyond the school day.

Beginning Spanish

Students will learn the basics of Spanish, from grammar to conversations. This is a good place for non-Spanish speakers to learn the rudiments of Spanish in preparation for their required foreign language credits in high school. This is a year-long class.

Teen Leadership

Students engage in activities designed to develop leadership skills. Students give speeches, brainstorm ideas for promoting peace and harmony in their world and train for participation in Pirate Pandemonium and Pirate Prep School.

Art

In this course you will explore, produce, and appreciate 2 and 3 dimensional works of art. Production activities may include drawing, painting, printmaking, and sculpting.

Culinary Careers / Family and Consumer Science

During this full year course, students will be exposed to lifelong skills through a combination of food safety, proper use of kitchen tools, hands-on food preparation in group settings, personal wellness and nutrition, family, exploration of careers, employability skills, and personal finance.

Business

This course exposes students to the rudiments of Business Management to include programming and logic, publishing, gaming, web design, and database software applications. Students participate in activities in a computer laboratory setting with hands-on experience with equipment and technology. This is an opportunity to follow the technology track through an Industry Certification.
